SUMMARY

Computer Science (AI & ML) undergraduate with strong fundamentals in Python, Data Structures & Algorithms, and web technologies. Experience in building deep learning pipelines and interactive AI-powered virtual assistants. Passionate about software development, solving complex problems, and leveraging modern AI to build impactful applications.

EDUCATION

Rao Bahadur Y Mahabaleswarappa Engineering College | VTU 2023 – 2027

Bachelor of Engineering in Computer Science & Engineering (AI & ML) | CGPA: 7.4 / 10.0

Bellary Independent Pre-University College 2020 – 2022

Class 12th (Pre-University) | Percentage: 75%

Basavarajeshwari Public School 2020

Class 10th (SSLC) | Percentage: 82%

TECHNICAL SKILLS

Languages: Python, JavaScript, C, SQL

Web & Frameworks: React.js, HTML5, CSS3

Developer Tools: Git, GitHub, VS Code

Core Concepts: Data Structures & Algorithms (DSA), Database Management Systems (DBMS), OOP

ACADEMIC PROJECTS

AIVA (Artificial Interview Virtual Assistant) | Python, React.js, Web APIs 2026

- Developed an AI-powered artificial interview virtual assistant designed to simulate mock interview environments and evaluate user responses.
- Designed an interactive frontend in React.js to deliver dynamic feedback and ensure smooth real-time user interaction.
- Implemented backend evaluation logic in Python to process user input and streamline response assessment.

Neural Style Transfer | Python, Deep Learning, PyTorch / TensorFlow 2025

- Built a deep learning image processing pipeline to apply artistic styles from reference images onto target images.
- Optimized feature extraction workflows and loss balance calculations in Python for improved processing speed.
- Structured input pipelines to efficiently handle high-resolution image rendering while conserving computational resources.

CERTIFICATIONS

- [Getting Started with CSS](#) — Master.dev · Instructor: Jen Kramer · 3h 19m · Completed Oct 17, 2024
- [Getting Started with JavaScript, v2](#) — Master.dev · Instructor: Kyle Simpson · 2h 36m · Completed Sep 2, 2024
- [JavaScript: From First Steps to Professional](#) — Master.dev · Instructor: Anjana Vakil · 14h 19m · Completed Sep 25, 2024
- [JavaScript: The Hard Parts, v2](#) — Master.dev · Instructor: Will Sentance · 6h 41m · Completed Oct 29, 2024

POSITIONS OF RESPONSIBILITY

Department Cricket Team Captain | Intra-College Sports Fest

- Led the department cricket team across multiple tournaments, directing squad selection, match strategy, and practice schedules.
- Demonstrated team leadership, communication, and decision-making under high-pressure competitive scenarios.
